ABOUT US

QAT Global's skilled development team brings .NET , Agile, and repeatable development process best practices to your custom solution or product development and provides full life-cycle services.

WHY CHOOSE US

- Our development team is experienced in developing projects with large databases for enterprise clients.

- We offer global, multi-shore delivery capabilities with the right skills in the right location to maximize your budget.

- We can accelerate your development using our reusable frameworks, ready-to-integrate code, tools, methods, and best practices.

.NET SOFTWARE DEVELOPMENT

.NET has become one of the most popular technologies for developing enterprise-class web applications. The flexible and modular .NET framework enables rapid application development for developing robust, scalable, and secure custom web applications. Whether your needs are for new application development, maintaining existing web applications, or migrating a web application that is on an older version to the current version, QAT Global's skilled developers can help you successfully deliver your development project.
