## Complete Project Outsourcing

Your projects require operational excellence, a solid architecture, reliable code quality, and innovation - our team is experienced in consistently delivering high value results for business-critical projects.

## Offshore Value Near Shore

Using a hybrid onshore-nearshore model, we deliver a mix of resources that delivers an exceptional value using an Agile-Scrum based methodology and repeatable processes.

## Easy Communication

Enjoy getting updates, answers, and results on your normal schedule as our Costa Rica teams share Central time zone working hours, business culture alignment, and speak fluent English. Collaborating, providing feedback, and exchanging critical information is easy.

# Costa Rica

Our Costa Rica Offshore Development Center provides clients with the best talent and business alignment in Latin American. Consistently ranked the #1 nearshore outsourcing destination in Latin America (by Tholons and AT Kearney).

- Central Time zone with close proximity and quick direct flights to many U.S. Cities
- Outstanding English language skills
- Strong cultural affinity to the US including flexible labor schedules/holidays aligned to US market
- Safest country in the region - recognized worldwide for its political stability and peace
- Highest educated workforce in the region, often referenced as the "Silicon Valley of Latin America"
