## Custom Software Development

*Have an idea for something new? Looking for a long-term reliable partner to realize new innovative ideas? QAT Global can help.*

### Delivering Innovative & Creative Results

Innovation and creativity are key at QAT Global. We create forward-thinking, custom software applications that can help you accomplish your business objectives, provide your customers with additional value, and differentiate your business in a tough competitive environment.

Our Custom Software Development service provides full lifecycle support, from design and architecture through development, testing and deployment. QAT Global thrives in the cutting edge technologies that enable business value through custom applications.

#### WEB DEVELOPMENT

Develop feature-rich custom web applications, websites, and portals for corporate and internet-focused projects including E-commerce, Logistics, Energy, and others.

#### SAAS SOLUTIONS DEVELOPMENT

Your full life-cycle SaaS model solution for development, deployment, and support with custom plug-ins development or integration of current SaaS solutions

#### DESKTOP APPLICATION DEVELOPMENT

Create cross-platform standalone and client-server business applications with stable functioning, high performance, and usability.

#### EMBEDDED SYSTEMS & OTHER PROGRAMMING APPLICATIONS

Move forward with embedded systems and device interfaces development, custom driver development, and high-performance applications design.
