

WE HELP COMPANIES MANAGE IT WORKLOAD

Manage your IT workload through QAT Global's strategic staffing solutions. Access qualified professional contract and permanent IT staff quickly and efficiently to meet your immediate and long-term business objectives.

LET'S TALK IT STAFFING SOLUTIONS

- IT Staffing services enable you to integrate talented global technical staff into discrete projects that are "time-boxed" and require specific market or technology expertise. As projects ramp up, we are there to provide the additional product development engineers to get the project done on schedule. Our staffing services comprise recruiting, retaining, and managing IT talent for clients, including both large organizations with multiple locations and high-volume IT requirements, and companies that need to augment their own staff on a flexible basis.

Get the
technical
talent you
need today.

For more than a decade, QAT Global has been a leading client services provider of consulting, staff augmentation, and specialty expertise required for critical IT initiatives.

Recruiting

QAT Global's recruiting philosophy is to provide high-quality IT professionals to our clients and adhere to a strict process to ensure that the appropriate consultant is identified for each customer requirement.

Retention

To ensure we provide a strong base of qualified consulting resources for our clients, QAT Global takes pride in our high retention average. Our committed employees believe in and have seen first-hand the difference superior technology can deliver to the user community.

Technical Expertise

QAT Global consultants have expertise in numerous specialties and industries that can augment your technology skill sets and improve your ability to meet your project and business goals.

Collaborative Partnership

QAT Global collaborates with our customers to consistently and cost-effectively plan, execute and deliver high-quality, seasoned consultants who develop trusted, long-term relationships and provide extensive experience and value to our clients.
